Our objectives

To equip children for their life's role in society with values of mutual respect, love, integrity and stewardship.

To identify and develop childrens' gifts and potentials as we prepare them for their leadership roles.

To empower children to think positively about themselves as they appreciate God's love for them.

As a trusted caregiver for your young ones, we are thrilled to announce our expansion into primary education. Divine Purpose Junior School is an ideal destination for children to learn, grow, and flourish.

STEPS TO A BETTER FUTURE

● *Education and learning*

Let's strengthen our learning experience with hands-on projects that complement our current term's theme. Additionally, we'll strengthen our scriptural foundation by memorizing verses and engaging in weekly Bible devotions that will assist them in becoming the best versions of themselves. But that's not all! We also have academic lessons lined up, balanced with daily prayer devotionals to keep our spirits uplifted. As the proverb states, "Train up a child in the way they should go, and when they are old they will not depart from it."

● *Personal development*

Enrich your skills by enrolling in swimming lessons, staying active with P.E., and exploring your creativity through drawing and coloring. Additionally, benefit from social time and enjoy outdoor activities with a group of like-minded learners.
